

# Nurse clinics at Coastway

## Our nursing team

Our great team of veterinary nurses are participants in their own right, offering routine care and advice. Our regular nurse clinics cover most aspects of general pet healthcare and post-operative support, as well as dietary and behaviour advice.

Learn more on **our website**.

## How our vet nurses can help

- Dental checks
- Weight management
- Senior clinics
- Diabetes monitoring
- Nutritional advice
- Microchipping
- Puppy and kitten advice
- Second vaccinations (if first done by our vet)
- Nail clipping
- Ear cleaning
- De-matting (if no sedation is required)
- Tick removal
- Expressing anal glands
- Administering medications (prescribed by a vet surgeon)
- Blood tests (referred by the vet surgeon)
- Injectable medications (as prescribed by a vet surgeon), when needed on a regular basis
- Triage emergency appointments
- Admit routine surgical procedures
- Discharge surgical patients
- Post-operative checks
- Stitch and staple removal
- Dressing and bandage changes
